

OISRA is following all OHA mandates for Nordic Time Trial Events.

Please do your part as a parent to follow these guidelines.

- **Wear a mask** in your car If you drive others who are not in your household. The highest risk activity for this sport is when people are driving others who are not in their household. For contact tracing purposes, you will be considered to have been exposed to the virus if anyone riding in your car tests positive.
- Parking at Meissner may be a problem on Time Trial days.
 - If the parking lot is full, please drop off your skier so they can be on time
 - You may have to wait for a parking spot to open up when others at the time trial leave
- **Please do not enter the ski course area unless you are volunteering. Spectators should not be gathering inside the ski course area.**
- **Wear a mask** and maintain **6-ft distance** whenever you are outside your car, unless you are skiing in a space where there are no other people nearby.
