

Team Rules

In order to participate on the Ski Team (Clackamas, West Linn, Canby, and Rex Putnam) and attend overnights and events, the student and his or her parents are advised and agree to the following:

Please initial each statement...

General

_____ Don't Drink or Use Drugs:

I will not use, sell, possess or distribute any illegal substances, alcoholic beverages, vape pens, drugs or similar while participating in any School or Ski Team events during the season and if I do I understand I will face suspension and possible expulsion from the team.

_____ Parent Pick up:

I understand my parents will be required to pick me up from team if I am found in violation of the No Drugs/Alcohol Policy.

_____ I Will Always Be Nice:

I will not use disruptive or rude behavior, abusive language, inappropriate behavior towards coaches, other team members, bus drivers, chaperones, mountain staff, parents or others and or do vandalism, fight during any Team function, or any other violation according to Team rules and the schools athletic handbook.

_____ I Will Attend All Team Events:

I agree that failure to participate in Dryland training, zoom meetings or on mountain training could result in not being seeded for league races. Exceptions will be made in advance with excused absences and at the discretion of the head coach.

_____ I'll Represent my team as well as my school name with Pride:

I'll always wear my official jacket on training and on race days, and I commit to always representing our team and our community with pride and respect, especially when wearing a jacket with sponsorship logos and our team logos on it.

On Snow

_____ Participation:

I understand that practice and/or race days are team activities, and I must communicate clearly with coaches if I need to deviate from the day's official team programming. I understand part of practice includes setting up, maintaining and taking down the course. I understand that I am expected to be on time for the bus departing from the mountain.

_____ Never Duck a Rope:

I commit to following all Ski Area rules and the Skier's Responsibility Code. I will never duck a rope or ski a closed trail, and I understand that runs are often closed for safety reasons.

_____ Gated Access Terrain:

I will not ski Gated Access Terrain (ex. Heather Canyon, Private Reserve, Fright Trees) without a coach AND buddy. I must request clearance from a coach to ski these areas.

_____ Athletes Can't drive to Mountain:

A ski team member may drive another member to Dryland training subject to the provisional driver's license laws of the State of Oregon. But athletes are not allowed to drive to or from the mountain for on snow training or on race days – no exceptions – this is a violation of Team Rules and Three River League rules and subject to team and league consequences.

_____ Initials to acknowledge I have read the MRT Athlete Parent Handbook

[MRT Values & Mission](#)

Academic Eligibility

_____ Good Grades:

I understand I must maintain passing grades in five classes at the semester and also be on track to graduate with a minimum number of credits in order to be academically eligible for Ski Team.

Training and Race Venue Policy

The MRT HS Ski Team Program (specifically with Clackamas, Canby, Rex Putnam, and West Linn) and the OISRA (State Governing Body) require certification for alpine coaches, specifically as a licensed USSSA Alpine Coach and/or OISRA Certified Coach, to be inside the rope line at a training and race venue, unless specifically volunteering for course/gate keeping crew at a race, or if asked to be there by the coaching staff for a specific purpose.

The concerns are the safety and learning experience of the athletes.

Think of the training or race venue as the playing field and sideline area during a soccer or football game; only athletes, coaches and officials are allowed in these areas.

Parents, to help the coaching staff create the best environment for your athlete, please abide by the following simple rules while on the mountain during training or competition:

Training Venue:

During training, along with developing the skills to race faster, coach and athlete are constantly working on habitual processes for inspection, visualization, and pre-race routines that will help the athlete reach desirable intensity levels for optimum performance.

1. Please refrain from hanging around the training course start venue.
2. If you would like to observe your athletes as they train with their coaches, specifically inside a roped venue with gates set, please do so from outside the rope line.
3. Please refrain from standing near a coach at the bottom of a training course as the coach is giving feedback. This includes the bottom of the Stadium training venue.
4. Please refrain from texting or calling your athlete or the coaches during practice training sessions. There are benefits to athletes fully focused during practice sessions and being out in nature.

The athlete is distracted by the conflict of authority figures present, and the learning process is interrupted.

Race Venue:

During competition, it is vital that coach and athlete are able to communicate to one- another without distraction from parents. Interrupting this process even with the best of intentions can have adverse effects on the athlete's ability to perform, which directly affects their ability to race in a safe manner.

1. Please refrain from hanging around the race course start venue.

2. Please do not loiter near the group during inspection.
3. Please refrain from interacting with your child immediately following their race performance before they have had a chance to debrief with their coach. Regardless of performance, athletes have just finished an intense physical and mental effort, and there are many emotions involved. Allowing the athlete to come down from this “performance high” by debriefing with their coach first, will help their interaction with you, their parent, to be a much more positive one.
4. Please refrain from texting or calling your athlete or the coaches during race sessions. A better option may be to set up meeting place at certain time in the day or have lunch options that they can access when needed as the timing of a race day is variable.
5. Please DO provide positive reinforcement and unconditional love and support to your child, regardless of results.

These are the best possible things you can give to your developing athletes.

Thank you all for your support and trust in the program.

Your athlete’s safety and development is of paramount priority and concern.

With my signature, I express that I have read and understand the terms outlined in this Training and Race Venue Policy
