

OISRA Board of Directors Action
October 28, 2021
By email agreement

The Board agreed that all coaches/volunteers who are seeking exception to the specific rules of their Division about vaccination must apply for exception to the OISRA Executive Director and attest to the following mitigation measures. They will

- not meet with others in an indoor setting for OISRA activities (carpooling is an indoor setting)
- wear a mask in all outdoor settings for OISRA activities, except for when they are maintaining 6' distancing while exercising.

They are encouraged to inform their team's affected parties (participants, parents, volunteers, other coaches, etc.) of their vaccination status.

It is understood that

- it is OK for anyone to ask another person about their vaccination status
- league representatives will be told which people in their league are unvaccinated because of a medical/religious exception, but the reason for the exception will not be disclosed
- an OISRA coach/volunteer seeking an exception to the OISRA vaccination mandate must apply to the OISRA Executive Director, even though they have also applied to an employer or another association.
